Summary

Fresh graduate in Computer Science Engineering, passionate about building scalable and efficient web and mobile applications following best practices. Experienced in full-stack development with over 3 years of hands-on projects built throughout my academic journey, and recognized with an innovative project label from Algeria's Ministry of Knowledge Economy. Eager to bring my technical skills and enthusiasm to a dynamic team as a full-stack developer and contribute to impactful real-world projects.

Education

- **State Engineer's Degree in Computer Science** *September 12, 2022 – September 28, 2025*
Higher School of Computer Science 08 May 1945, Sidi Bel Abbès (Double-degree program)
 - **Thesis title:** Mobile Application for Healthy and Local Consumption in Algeria
- **Master's Degree in Information Systems and Web** *September 12, 2022 – September 28, 2025*
Higher School of Computer Science 08 May 1945, Sidi Bel Abbès (Double-degree program)
 - **Thesis title:** Mobile applications for promoting good habits: persuasive strategies and ethical considerations
- **Bachelor's Degree in Mathematics and Computer Science** *November 19, 2020 – September 11, 2022*
L'arbi Ben M'hidi University, Oum El Bouaghi

Awards and Honors

- **Certificate of an Economic Enterprise Project** *September 29, 2025*
Awarded by the Business Incubator of Higher School of Computer Science 08 May 1945, Sidi Bel Abbès
- **Innovative Project Label** *September 24, 2025*
Awarded by the Ministry of Knowledge Economy, Startups and Micro-Enterprises
- **Participated in National Contest of Higher Schools** *July 13, 2022*

Higher School of Computer Science, Algiers (Algeria)

- Won access to Higher School of Computer Science 08 May 1945, Sidi Bel Abbas

Internship Experience

- **Software Development Intern**

September 03, 2023 – September 26, 2023

The treasury of the Oum El Bouaghi province

- Collaborated with senior developers to design and develop new features for desktop software applications using Java Swing and MySQL, following Agile methodologies and using JIRA for task management.
- Conducted thorough testing and debugging of software modules using JUnit and manual testing techniques, automating 50% of the tests, resulting in a 20% increase in application performance and reliability.
- Actively participated in daily stand-up meetings and sprint planning sessions.

Projects

- **Foodia (the final year project)**

March 01, 2025 – July 24, 2025

- Developed an AI-powered mobile application that analyzes food products to provide instant nutritional insights and suggest healthier alternatives, helping users make informed dietary choices.
- Designed the UI using **Flutter** with ethical persuasive design principles to enhance user engagement.
- Implemented a **modular and scalable client-server architecture** using **Python**, **Node.js**, and **MongoDB**, ensuring efficient data processing and system performance.

- **Medisphere**

March 01, 2024 – June 10, 2024

- Developed a web application that enables patients to easily book medical appointments and assists doctors in efficiently managing their schedules.
- Designed the frontend using **Vue.js** with a **modular and scalable architecture** to enhance usability and maintainability.
- Integrated the **frontend and backend** through a **microservice architecture** using **Spring Boot** and **Node.js**, ensuring seamless communication, faster deployment, and improved overall system performance.

- **ELITEA**

March 01, 2023 – June 08, 2023

- Developed an e-commerce web application enabling users to browse, purchase, and manage prod-

ucts seamlessly.

- Designed and implemented the user interface using **React.js**, applying **modular and scalable architecture principles** and **responsive design techniques** to ensure optimal performance across devices and enhance user experience.

Skills

- **Technical Skills:** RESTful APIs, Design Patterns, SOLID Principles, Object-Oriented Programming (OOP), Git, Docker, Microservice Architecture, MVC Architecture, Web Development, Mobile Development.
- **Programming Languages & Tools:** Python, Java, JavaScript, Node.js, Spring Boot, Vue.js, React.js, Flutter, MongoDB, MySQL.
- **Entrepreneurship Skills:** Business Model Design, Innovation Management, Market Analysis, Problem Solving, Strategic Planning, Team Leadership, Pitch Presentation, Customer-Centered Design.
- **Business & Soft Skills:** Leadership, Communication, Project Management (Agile), Teamwork, Time Management (Prioritization), Stress Management, Creativity, Initiative.

Languages

- **Arabic :** Native.
- **French :** B2.
- **English :** Professional working proficiency.
